

AMTOPP X-TREME™ Stretch Wrap “EH” Series

This technologically advanced 9-layer structured cast film renders superior strength and stretch allowing maximum load holding force & minimum film usage.

The AMTOPP X-TREME™ stretch wrap is engineered for optimum performance with total versatility on any high-speed automatic stretch wrapping equipment regardless of the load shape & weight.

The AMTOPP X-TREME™ film's differential cling feature with excellent inside cling and reduced outside cling makes the film suitable for many one-sided cling applications. Furthermore, the quiet unwind and clarity of the film makes the AMTOPP X-TREME™ stretch wrap the ideal choice in any automated operation environment.

Features

- Newest 9-layer structure
- Excellent stretch
- High tensile strength
- Superior load holding force
- Aggressive differential cling with superior inside and reduced outside cling
- Outstanding puncture resistance
- Exceptional tear resistance
- Great optical clarity for electronic scanning
- Superb economical value
- ISO 9001:2000 Certified

Pallet Stretch Film
High Performance Plus Machine Wrap

AMTOPP X-TREME™ stretch wrap is a High Performance Plus machine wrap. Designed for use on high-speed automatic stretch wrapping equipment, the AMTOPP X-TREME™ “EH” film renders the extra stretch and strength needed for fully automated operations. The film’s differential cling featuring superior inside cling and reduced outside cling and quiet unwind make it easy to work with, and the excellent clarity allows bar-code scanning at any stage in any automatic handling system.

Product	Thickness (Gauge)	Width (Inch)	Length (Feet)	Net Wt/ Roll (Lb)	Rolls/ Pallet	Net Pallet Wt (Lb)
