

IBS Introduces New Line of Medical Exam Grade Gloves

Lolita, Texas, January 9, 2013—Integrated Bagging Systems (IBS) is pleased to offer a new line of premium quality Medical Exam Grade gloves to complement our current stock offering of general purpose gloves. These new stock items include Vinyl Powdered and Powder-free; Latex Powdered and Powder-free; and Synthetic and Nitrile Powder-free. IBS Medical Exam Grade gloves are packed 100pcs X 10 inner boxes in a master case.

Our Medical Exam Grade gloves are non-surgical, non-sterile, and conform to the strict Food and Drug Administration (FDA) requirements for specific quality control standards (FDA510K and ASTM D5250) to provide superior protection for patient examination (800.20 and 880.6250).

IBS Medical Exam Grade gloves have an Acceptable Quality Level (AQL) of 2.5 for use by healthcare professionals, hospitality and industrial workers, and others requiring a specific barrier to blood, urine or other infectious agents.

These Medical Exam Grade gloves can be used for various applications involving clinical laboratory analysis, technical/health inspections, handling small electronic parts, food processing, maintenance and cleaning.

If you require more information, please contact Vinod Ghumwala, Product Development Manager, at vghumwala@inteplast.com or call toll-free at 800-896-3222 ext. 8234.

A division of Inteplast Group, Integrated Bagging Systems has manufacturing facilities in Texas, Massachusetts, Canada and Asia. IBS offers customers a complete array of plastic products including can liners (janitorial/institutional), food service products (food bags, reclosable bags, PVC film, deli sheets, steam table pan liners, bun rack covers, carry out bags, etc.), gloves, retail and grocery style bags for supermarkets (merchandise, garment, produce, and deli), healthcare products (specimen transfer bags, patient belonging bags, etc.), and consumer private label products (trash bags, food bags, and storage containers) and industrial supplies.
