

# Polyethylene Disposable Gloves

Poly gloves are made of polyethylene (PE). Poly gloves are a little loose & flexible and provide comfort & softness. Poly gloves are primarily used for light applications. They protect hands from skin-irritating tasks, keep food away from bacterial perspiration and skin oils. Disposable poly gloves are categorized into HDPE and LDPE gloves according to density of material. Poly gloves are produced from materials which fully comply with FDA rule 177.1520 for food contact and FDA rule 110.10 GMP for food handling. Inteplast gloves are free of DINP / DOP / DEHP plasticizers.

## Applications

- Food Service Preparations
- Restaurants
- Delis
- Bakeries
- Janitorial
- Office Cleaning

## Physical Properties

Properties	Small	Medium	Large	Extra Large	Tolerances
