

XF BW Film Bale Wrap

IntePlus[®] XF Bale Wrap film is a very strong and stiff cross-laminated film for packing synthetic fiber and cottons.

Made with solid polyethylene, it does not peel or shred like PP woven material making it a preferred choice for the synthetic fiber industries.

IntePlus[®] XF Bale Wrap is engineered for automatic and manual fiber packing machines.

Features & Benefits

- Ensure high puncture resistance on every type of round or square bale
- Excellent resistance to weathering
- Excellent protection through the duration of outdoor exposure
- Enables bales to be transported conveniently
- Good mechanical properties engineered for Lummus and Autefa automatic fiber packing machines

Applications

- Bale wrap for polyester fiber
- Cotton bale wrap
- Hay bale
