

XF LW Film Lumber Wrap

IntePlus[®] XF Lumber Wrap is a strong, opaque cross-laminated film that protects lumber from the sun's rays.

The wrap's black interior blocks the sun's rays and prevents heat build-up and harmful condensation from staining the wood.

The white exterior reflects the sunlight and provides a clear printable surface for product identification or a company logo.

Features & Benefits

- Extremely rugged material that will perform in almost any environment
- Maintains its strength at temperatures ranging from -40°F to 180°F
- Completely moisture resistant and retains 100% of its strength when wet
- Compatible with all standard industrial wrapping machines
- UVI protection

Applications

- Softwood lumber, hardwood lumber, and plywood
- Beams
- Moldings
- Treated wood
- Other building materials
