

XF MW Film Metal Wrap

IntePlus[®] XF Metal Wrap film is twice as strong as standard polyethylene materials of the same thickness. It is ideal for wrapping heavy or irregularly shaped items, including metal parts, machines, steel, and coil sheets.

An optional VCI additive layer prevents rust and corrosion of metal to protect products such as metal sheets, machinery, and cable wheels.

Features & Benefits

- Stronger than standard polyethylene materials in same thickness
- Odorless, non-toxic, and recyclable
- Heat-sealable is available

Applications

- Coils
- Machinery
- Metal sheets
- Cable wheels
- Metal parts
